Winchester
Tile
Company®

Hand Crafted
English Tiles

The
Winchester
Tile
Company®

As England's leading producer of hand crafted tiles, we continue to produce our tiles in Devon's historic city of Exeter.

The art of making tiles

Everything we produce is unique and the culmination of the combined experience of the highly skilled artists, designers and crafts people who make up our team.

In the beginning our flat tiles start out as 'bisques', blank canvases bearing nothing but the Winchester name indented on the undecorated flip side.

It's what happens next that dictates the end result: the various manufacturing processes of firing temperatures and frequency; different glazes and how they react to heat and other processes; hand painting and finishing – the alchemy of tile making at its best.

One Tile Company, now with four distinct collections

Much like nature we like to evolve. Our Winchester Collection has, up to now, comprised of three ranges, including Residence, which is rustic and stylish: timeless Artisan, with mellow tones inspired by nature; and Classic with a huge range of colours and mouldings and whimsical designs. To complement the Collection and keep up to date with new trends, we've created Elements, which includes a gorgeous selection of artisanal brick tiles with unique and rustic surfaces.

CLASSIC

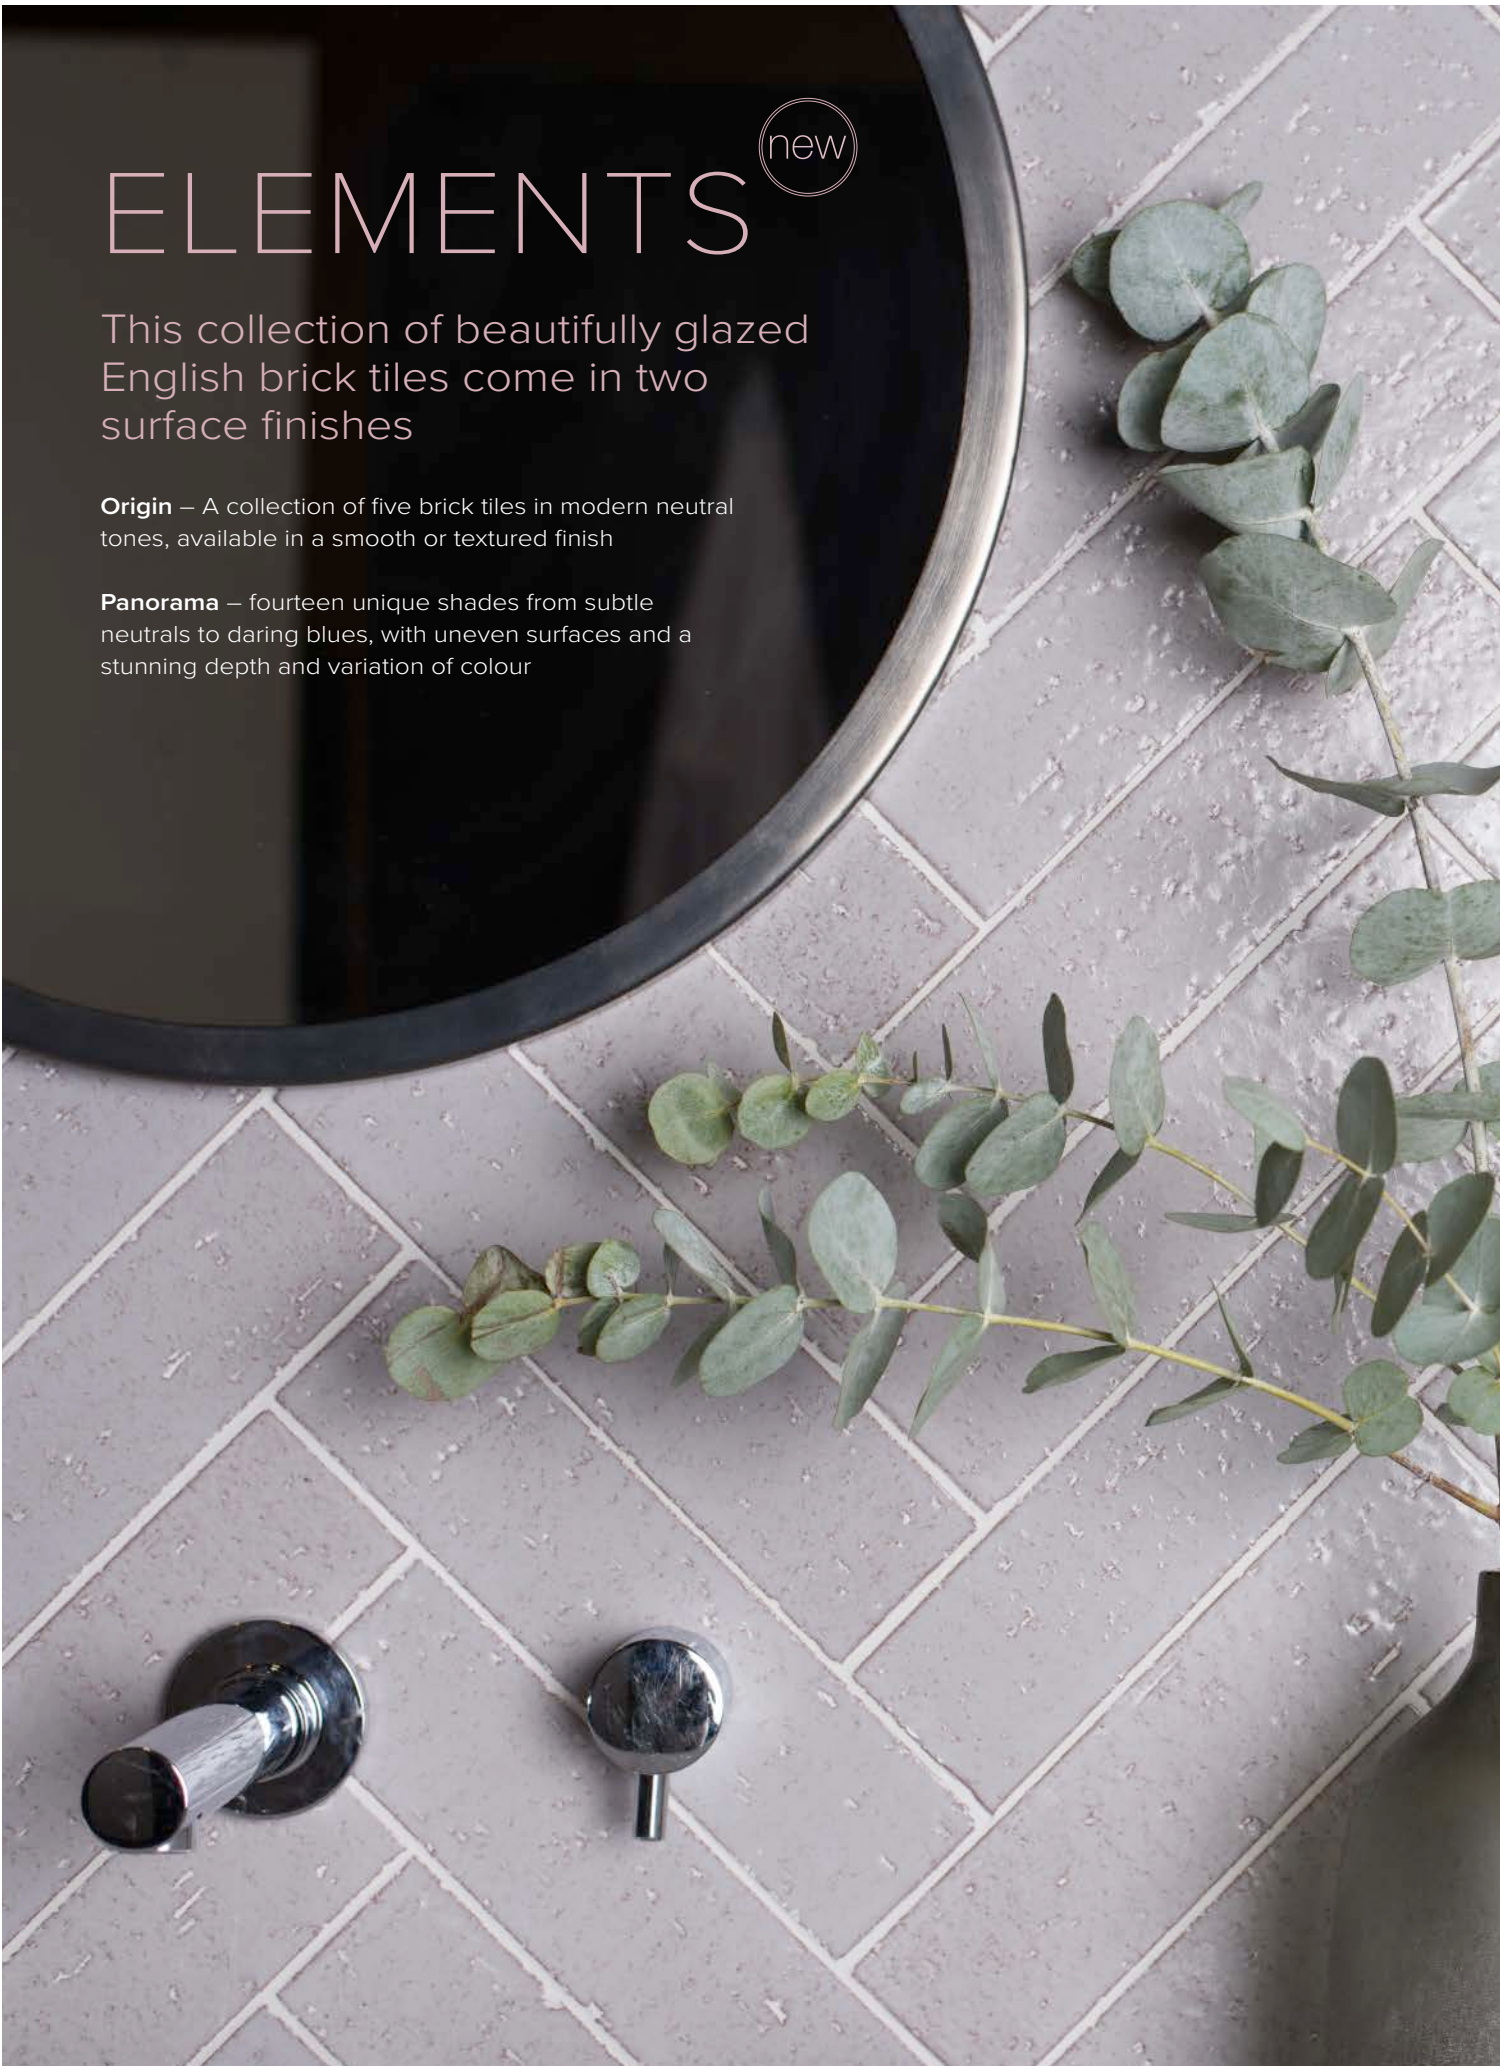

ELEMENTS

new

This collection of beautifully glazed English brick tiles come in two surface finishes

Origin – A collection of five brick tiles in modern neutral tones, available in a smooth or textured finish

Panorama – fourteen unique shades from subtle neutrals to daring blues, with uneven surfaces and a stunning depth and variation of colour

Left: Origin Smoke Rustic

Above: Panorama Elements Meadow

Right: Origin Sand Rustic

Below: Panorama Stream

Below right (top): Panorama Spring

Cliff and Dale detail

ELEMENTS

Origin ^{new}

Irregular, unique, infinitely varied – it's all part of the beauty of these hand crafted tiles.

The Origin Collection elicits a sense of new beginnings; each tile has an artisanal feel and comes in five neutral tones, perfect for creating a modern rustic look. Choose a smooth finish for a subtle texture or opt for a rustic finish which has a more unique appeal.

ELEMENTS

Panorama

new

This beautiful range of glazed brick tiles is unique in many ways. The softness of the glaze recipes allow for the feel of the bisque to come through each layer, resulting in an artisanal speckled look. The shades are inspired by the striking colours of the English countryside, from the blues of the sea to the earthy greens and warm browns of English landscapes, with 14 shades to choose from.

RESIDENCE

A collection of beautifully crafted,
hand finished tiles

A rustic clay base means that the tiles and mouldings in the Residence Collection have undulating surfaces and uneven edges, contributing towards a style that is undoubtedly at home in kitchens, dining areas, utility rooms, bathrooms and showers, cloakrooms and conservatories.

The Residence Collection consists of:

Cosmopolitan - A selection of tile formats with a distinctive glossy glaze, and colours ranging from muted white to intense inky blue.

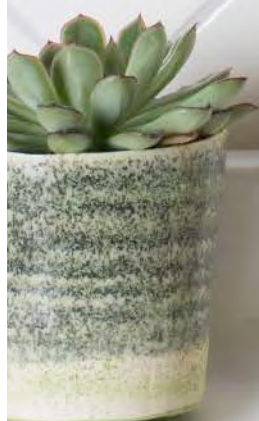

Metropolitan - Tiles and their mouldings in a unique lustrous finish, which glistens with a pearl-like sheen.

Arcadian - Muted chalky colours in delicately textured crackle glaze which gives a softly aged look.

Foundry Metallics - Tiles in two stunning metallic finishes and five different sizes including square and brick formats.

Chateaux - Beautifully decorated tiles in rich colours and textures.

Decorated Tiles - Delicate and charming illustrations, all hand decorated, to add an extra touch of style to your room.

There's plenty to choose from in the Cosmopolitan range of glossy tiles and mouldings: field tiles, half tiles, two sizes of brick and two co-ordinating mouldings.

The palette of 24 colours for field tiles ranges from a bright white through to a dark, moody grey, giving you plenty of choice for both traditional and contemporary interiors. Turn the page for the rest of the colour options.

Right: Mint field tiles

Bottom right: Papyrus field tiles

Below: Mere field tiles

These stronger shades can add a dramatic edge to your walls. Cosmopolitan's high gloss finish and intense colours on the undulating, rustic tile bases result in deeply pooled areas and interesting reflective effects.

GLOSS HALF TILES 130 x 63 x 10mm (2½" x 5⅛" x ⅜")

Use half tiles on their own or combine with field tiles to add interest. Adding a Torus moulding will finish off a row of tiles or separate different colours and shapes from each other. A skirting effect (shown right) can be created by placing a moulding above a field tile.

RESIDENCE

Arcadian

Left: Porcelain brick tiles
Above: Estuary field tiles
Below: Linen field tiles
Bottom: Close up of crackle

A delicately textured crackle glaze in muted chalky colours gives these tiles a softly aged look

Part of the charm of tiled surfaces is how they sometimes craze and crackle over time. With Arcadian tiles this crackle has been built in, giving you a lovely, antiqued effect. Enhance the aged look by using different coloured grouts, as shown left.

The Arcadian range is available in 12 crackle glazes in the following formats: field tile, half tile, two bricks, Torus and Ogee mouldings.

The muted colours and crazed textures of Arcadian can add an air of faded opulence to your walls. You can intensify the aged crackle effect, too, by rubbing a slightly darker coloured grout onto the surface of the tiles.

See Important Information pages 118-127 for more about the inherent crackle feature.

Foundry Metallics

Stunning metallic effects and dramatic, glowing colours

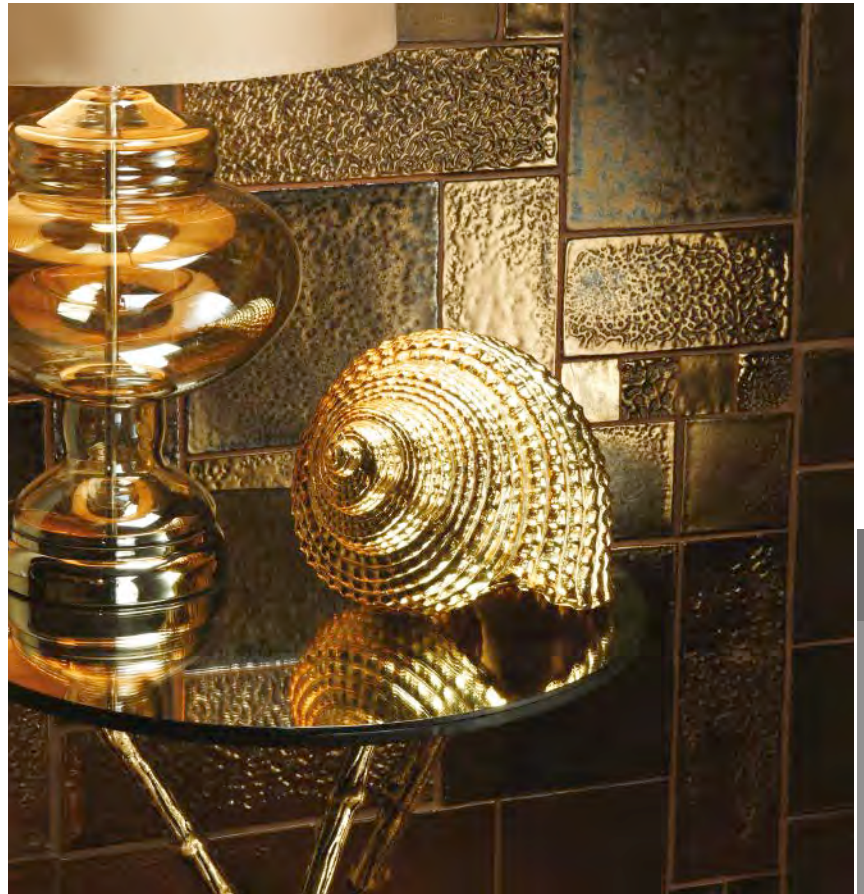

Metallic glazes are used to create some amazing effects on these tiles, which are available in five sizes in two distinctive colourways.

The special glaze process produces considerable differences between every tile, particularly for the Roman Gold tiles, which may be rippled and uneven in surface texture and colour. Combined they look gorgeous (see above) and it also means your tiles will be truly unique!

Left: Roman Gold mix
Above: Gallium Mix
Right: Roman Gold Mix
Lower Left: Gallium (50x50mm)

Foundry Metallic tiles are dramatic and distinctive. The use of different lighting effects such as fire light, soft focus and spot lights will simply add to the drama. Feel free to mix and match to create your own unique metallic masterpiece.

and patterned rugs from
around the globe

46

Residence Chateaux

The patterns and colours in the Chateaux Collection were inspired by an eclectic range of artifacts and places: ceramics and tiles from ancient Persia and Morocco, kelim rugs from Turkey, tapestries from French castles and pottery from Andalusia.

If you look closely you will discover that every tile is slightly different. Intriguing random textured effects result from the deliberate use of glazes that 'react' on the surface.

The combination of a rustic tile base and the reactive glazes produces glossy tiles that have noticeably textured surfaces.

Left: Ormeaux Red on Mint with Papyrus field tiles
Top Right: Merles on Papyrus
Right: A patchwork of Chateaux
Above: Ormeaux on Bastille, Amun and Lagoon

Every tile is like a miniature work of art

Weave these patterns together to make a beautifully rich and textured feature – a dazzlingly simple way to add character and style to a wall. The Chateaux tiles shown below are different patterns in blue on either a Cosmopolitan Papyrus or Truffle background. They can be used to create stylish patchwork effects or placed individually.

Close up of crackle glaze

Trimming excess clay

ARTISAN

Soft colours with a timeless appeal

Inspired by nature and hand crafted by our skilled artisans, this beautiful range of wall tiles and mouldings has a timeless appeal and will look beautiful in all settings, modern and traditional alike. The soft colours, named after the sleepy villages and historic market towns of England's Suffolk, gently wash over the tiles and mouldings. Tilt one of the tiles in the light and you'll see the subtle undulations in the surface and less than straight edges.

Tiles, decorative borders and insets evolve from the process of refining raw clay, pouring and pressing, moulding and shaping. Every piece is carefully inspected, skillfully finished, and left to dry. They are made ready for their first kiln-firing, then glazed and fired again.

Artisan consists of 12 gloss glaze colours and six crackled glazes in field tile, half tile and brick. The Crackle glazes will be a slightly different shade to the Gloss colours of the same name.

ARTISAN

Field Tiles

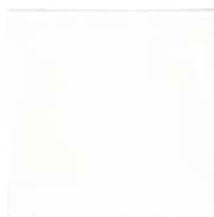

Enhance your home – hallway, bathroom, cloakroom or kitchen – with the mellow tones, clever detailing and softly reflective surfaces that are the essence of the Artisan collection

Half Tiles

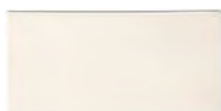

Half tiles and brick tiles (see the next page) are extremely versatile, especially in the Artisan colours and crackle options. Using a dark grout with a pale tile looks attractive and is a practical option for kitchens. Just make sure you test a small area before starting to grout your wall, to avoid any staining (see our Fixing Guide at www.winchestertiles.com for more help and guidance).

Brick Tiles

Snap Gloss brick with Clarence border in Snap Gloss

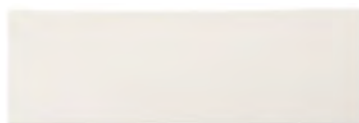

There's something very pleasing about the shape of this brick tile: and although it looks right up to the minute, it does in fact have a long history. When installed in a brick bond pattern the horizontal lines create an illusion of width, so a wall or entire room can appear bigger. The Clarence moulding (see page 76) has been designed to co-ordinate with the brick, and it is available in the same 12 gloss and six crackle glazes.

ARTISAN

Decoratives

Bring the outside in with our new decorative half (brick) tiles – Kew, Rosemoor, Wisley and Bicton – from Artisan. The inspiration for these designs came from plants and flowers found in gardens and the English countryside. The subtle colours of Helmingham, Helmingham Vintage, Dunwich, Snape and Sudbury will all look beautiful in bathrooms, cloakrooms, kitchens and utility rooms.

DECORATIVE FIELD TILES

The inspiration for these beautiful designs came from around the Mediterranean. The intricate repeating patterns are reminiscent of traditional rug and carpet patterns, and rich colours will bring a burst of sunshine to your kitchen or bathroom.

CLASSIC COLLECTION

The charm of all things handmade, hand painted or hand finished, is that no two pieces are likely to be identical

There's a wealth of choice, whether you are decorating a kitchen, bathroom, cloakroom, hallway, garden room or utility area. Colours for field tiles, half tiles and mouldings range from Pure White to Black via a range of neutrals through to strong rich hues, all in a gloss finish.

Field tile sizes range from 105 x 105 x 10mm (4 $\frac{1}{8}$ " x 4 $\frac{1}{8}$ " x $\frac{3}{8}$ "") to 127 x 127 x 10mm (5" x 5" x $\frac{3}{8}$ ""), with half tiles 127 x 63 x 10mm (2 $\frac{1}{2}$ " x 5" x $\frac{3}{8}$ ""), with borders and mouldings to co-ordinate and enhance your selection. A special waterfall glazing technique is used on the gloss field tiles, which normally results in two fully glazed edges on each tile, eliminating the need for a special trim piece such as a bullnose.

CLASSIC Half Tiles

Versatile half tiles always look good in the traditional brick bond pattern, but you could experiment by applying them vertically or even in a herringbone pattern. Place them above a dado rail with field tiles beneath, in either a co-ordinating or contrasting colour for interest.

CLASSIC

Mouldings

The finishing touches to your design

Our mouldings are based on classical English designs including Victorian dado rails and Georgian cornices. Available in a selection of gloss colours to enhance and complement the field and half tiles. Other colours in the range can be made to order.

PENCIL (105mm)

Off White W.OW1014
105 x 13mm (4 1/8" x 1/2")

PENCIL (127mm)

Off White W.OW1012
127 x 13mm (5" x 1/2")

LISTELLO

Off White W.OW1212
214 x 19mm (8 3/8" x 3/4")

LARGE MOULDING

Off White W.OW1600
258 x 64mm (10 1/8" x 2 1/2")

ROPE

Off White W.OW1217
214 x 25mm (8 3/8" x 1")

DADO RAIL (214mm)

Off White W.OW1226
214 x 38mm (8 3/8" x 1 1/2")

DADO RAIL (258mm)

Off White W.OW1601
258 x 38mm (10 1/8" x 1 1/2")

DADO RAIL TURNS AND CORNERS

Suitable for use with 214mm and 258mm Dado Rails

Turn
Off White
W.OW1227
38 x 38mm
(1 1/2" x 1 1/2")

Corner
Off White
W.OW1225

The Listello, Rope and the shorter Dado Rail and Semi Round Pencils all co-ordinate with the 105 x 105mm (4 1/8" x 4 1/8") tiles. The longer Dado Rail and the Large Moulding co-ordinate with the 127 x 127mm (5" x 5") tiles and 127 x 63mm (2 1/2" x 5") half tiles. The turn and corner are suitable to use with both Dado Rails.

CLASSIC

English Delft

Our love affair with Delft began in the 16th century when English artists transposed classic Dutch designs to English settings. Here, the sources of inspiration are original 16th century drawings, applied in cobalt blue on Delft opaque tin glaze.

DE MORGAN

William De Morgan was the most important ceramic artist of the Arts and Crafts Movement and a life long friend of William Morris. In keeping with the aims of their movement, which frowned on mass production, they designed this fish frieze. Every tile is hand painted by one of our skilled artists.

A modern bathroom vanity setup. A white, thick, oval-shaped marble basin sits on a dark grey countertop. Behind it is a black, minimalist faucet with a single lever handle. The wall is covered in blue rectangular tiles arranged in a herringbone pattern with white grout. To the left of the basin, a white towel is draped over the edge. To the right, a shaving brush in a wooden holder and a small blue ceramic container are visible.

Important Information

How many tiles will you need?

Once you have decided on your tiles, calculate how many you will need by measuring the area to be tiled. Recommended grout gaps vary depending on personal taste and the look you wish to achieve, and also the uneven nature of the tile edge. Generally, the more rustic the base, the wider the grout gap.

De combien de carreaux aurez-vous besoin?

Une fois que vous avez choisi vos carreaux, calculez la quantité dont vous aurez besoin en mesurant la surface à carrelers. Les écarts de joint recommandés varient en fonction des goûts personnels et de l'apparence que vous souhaitez réaliser, mais aussi de l'irrégularité des bords des carreaux. En général, plus les carreaux sont rustiques, plus l'écart de joint sera grand.

Wie viele Fliesen brauchen Sie?

Wenn Sie sich für eine bestimmte Fliese entschieden haben, können Sie ausrechnen, wie viele Fliesen benötigt werden, indem Sie den zu verarbeitenden Bereich messen. Die empfohlenen Fugenabstände richten sich nach Ihren persönlichen Vorlieben dem gewünschten Erscheinungsbild, werden aber auch durch die ungleichmäßigen Fliesenkanten bestimmt. Generell gilt: umso rustikaler die Fliese, desto größer die Fuge.

Hoeveel tegels hebt u nodig?

Zondra u uw tegels hebt uitgekozen, kunt u berekenen hoeveel u er nodig hebt door het te betegelen oppervlak op te meten. De aanbevolen voeglijnen zijn afhankelijk van persoonlijke smaak en het eindresultaat waarnaar u op zoek bent. Ook de oneffen aard van de tegeluiteinden spelen een rol. In het algemeen geldt dat hoe rustieker de tegels zijn, hoe breder de voeglijn is.

Сколько понадобится плиток?

Выбрав требуемую плитку, следует измерить необходимую площадь, чтобы подсчитать, сколько понадобится плиток. Рекомендуемое межплиточное расстояние зависит от личных предпочтений. Кроме того, следует учитывать неровность между краями плитки. В целом, чем более неровная основа плитки, тем шире межплиточное расстояние.

130 x 63 _{mm}	2 ½" x 5 ⅛"	122	11
130 x 130 _{mm}	5 ⅛" x 5 ⅛"	59	5.5
150 x 150 _{mm}	6" x 6"	44	4
200 x 100 _{mm}	4" x 8"	50	4.5
200 x 200 _{mm}	8" x 8"	25	2.25
300 x 75 _{mm}	3" x 12"	44	4
Artisan			
150 x 75 _{mm}	3" x 6"	88	8
150 x 150 _{mm}	6" x 6"	44	4
225 x 75 _{mm}	3" x 9"	59	5.3
Classic			
105 x 105 _{mm}	4 ⅛" x 4 ⅛"	81	8
127 x 63 _{mm}	5" x 2 ½"	109	11.5
127 x 127 _{mm}	5" x 5"	56	5.75

Please allow an extra 10% for cutting and wastage. Measurements above and quoted throughout are for the front face of the tile/moulding. Please note that the front face of Artisan field tiles and half tiles is marginally smaller than the back face, whereas the moulding and skirting pieces have the same dimension for both front and back facings. Work sizes for products in this brochure are as follows:
EN ISO 10545-2, EN14411 Annex K, Length and Width N > 15 cm. = +/- 0.5% of the work size
7 cm < N < 15 cm. = +/- 0.75 mm of the work size
This does not apply to Winchester Artisan mouldings and Winchester Classic mouldings as these are slip cast. In these cases every effort is made to target the work size.
Recommended grout gaps are based on the following:
Residence: 3-4mm, Classic: 3-6mm, Artisan: 2mm, Elements: 2mm

The front face of the Artisan field tiles, half tiles, brick tiles and decorated tiles is marginally smaller than the back face, whereas the moulding and skirting pieces have the same dimension for both front and back facings. To ensure that tiles and mouldings are aligned when they are included in the same installation, we recommend using 1mm spacers when fixing field tiles, half tiles, brick tiles and decorated tiles, and 2mm spacers when fixing mouldings, trims and skirting pieces. The 1mm spacers must be pushed in so that they make contact with the back face edges of the tiles.

We always recommend that any tiling is carried out by an experienced professional tiler. For full fixing information, please refer to our Fixing Guide on www.winchestertiles.com.

Veuillez toujours ajouter 10 % pour tenir compte des découpes et déchets éventuels. Les mesures ci-dessous et les autres mesures citées ailleurs concernent la face avant des carreaux/moulures. Notez que la face avant des carreaux unis Artisan est légèrement plus étroite que leur dos, tandis que les dimensions des moulures et des plinthes restent les mêmes sur le devant comme au dos. Les dimensions et marges de tolérance pour les produits de cette brochure sont comme suit:
EN ISO 10545-2, EN14411 Annex K, longueur et largeur N > 15 cm. = +/- 0.5% de la taille réelle
7 cm < N < 15 cm. = +/- 0.75 mm de la taille réelle
Ceci n'est pas applicable aux moulures de la gamme Winchester Artisan et Winchester Classic étant fabriquées avec un moule.
Dans ces cas, tous les efforts sont fait pour respecter la taille réelle.
Les écarts de joints recommandés se basent sur les mesures suivantes : Residence : 3-4 mm, Classic : 3-6 mm, Artisan : 2 mm, Elements: 2mm

La face avant des carreaux unis, demi-carreaux, carreaux effet brique et carreaux décorés Artisan est légèrement plus étroite que leur dos, tandis que les dimensions des moulures et des plinthes restent les mêmes sur le devant comme au dos. Pour aligner correctement les carreaux et les moulures dans une même installation, nous vous recommandons d'utiliser des entretoises de 1 mm lorsque vous posez les carreaux unis, demi-carreaux, carreaux effet brique et carreaux décorés, et des entretoises de 2 mm lorsque vous posez les moulures, les listels et les plinthes. Les entretoises de 1 mm doivent être disposées de manière à toucher les bords du dos des carreaux.

Nous vous recommandons de toujours faire installer vos carreaux par un carreleur professionnel et expérimenté. Pour des informations complètes sur l'installation, reportez-vous à notre Guide d'installation sur www.winchestertiles.com.

Bitte planen Sie zusätzliche 10 % für Verschnitt und Reststücke ein. Die obigen und andere in der Broschüre angegebenen Maße gelten für die Vorderseite von Fliese / Formstück. Bitte beachten Sie, dass die Vorderseite der Artisan Grund- und Halbfiesen geringfügig kleiner als die Rückseite ist, während Formstücke und Sockelleisten die gleichen Dimensionen sowohl für Vorder- und Rückseite aufweisen. Werkmaße für Produkte in dieser Broschüre sind wie folgt:
EN ISO 10545-2, EN14411: Anhang K, Länge und Breite N > 15 cm. = +/- 0.5% des Werkmaßes
7 cm < N < 15 cm. = +/- 0.75 mm des Werkmaßes
Dies gilt nicht für Winchester Artisan Formstücken und Winchester Classic Formstücken, da sie geschlickerte Produkte sind. Wir versuchen jedoch auch hier das Werkmaß zu erzielen. Empfohlene Fugenabstände beruhen auf:
Residence: 3-4 mm, Classic: 3-6 mm, Artisan: 2 mm, Elements: 2mm

Die Vorderseite der Artisan Grund-, Halb-, Ziegel- und Dekorfliesen ist geringfügig kleiner als die Rückseite, während Formstücke und Sockelleisten die gleichen Dimensionen sowohl für Vorder- und Rückseite aufweisen. Um sicherzustellen, dass Fliesen und Formteile korrekt ausgerichtet sind, empfehlen wir die Verwendung von 1 mm Fugenkreuzen beim Verlegen von Grund-, Halb-, Ziegel- und Dekorfliesen. Für Formstücke, Profile und Sockelleisten verwenden Sie bitte 2 mm Fugenkreuze. Die 1 mm Fugenkreuze müssen so eingesetzt werden, dass sie Kontakt mit den rückseitigen Kanten der Fliesen haben.

Wir empfehlen stets, dass unsere Fliesen von einem erfahrenen und professionellen Fliesenleger verlegt werden. Für vollständige Informationen zur Verlegung beachten Sie bitte unsere Verlegeanleitung unter www.winchestertiles.com.

Bestel 10% extra voor snijresten en afval. Bovenstaande en opgegeven maten zijn altijd van de voorkant van de tegel/het profiel. De voorkant van de vierkante tegel en de halve tegel van Artisan is enigszins kleiner dan de achterkant. De profiel- en randtegels hebben wel dezelfde afmetingen aan de voor- en achterzijde. De maattolerantie voor de producten in deze brochure zijn als volgt:
EN ISO 10545-2, EN14411 Annex K, lengte en breedte N > 15 cm. = +/- 0.5% van de nominale maat
7 cm < N < 15 cm. = +/- 0.75 mm van de nominale maat
Deze maattolerantie geldt niet voor de Winchester Artisan streppen en Winchester Classic streppen, aangezien deze vormen gegoten zijn. In deze gevallen doen wij ons uiterste best om de nominale maat aan te houden.
De aanbevolen voeglijnen zijn gebaseerd op het volgende: Residence: 3 - 4mm, Classic: 3 - 6 mm, Artisan: 2 mm, Elements: 2mm

De voorkant van de vierkante tegel, de halve tegel, de bakstenen tegel en de siertegel van Artisan is enigszins kleiner dan de achterkant. De profiel- en randtegels hebben wel dezelfde afmetingen aan de voor- en achterzijde. Om ervoor te zorgen dat de tegels en de profieltegels op elkaar aansluiten als ze deel uitmaken van dezelfde installatie, raden we aan dat u tegelkruisjes gebruikt van 1 mm bij het zetten van veldtegels, halve tegels, bakstenen tegels en siertegels, en afstandstukken van 2 mm bij het zetten van profieltegels, listtegels en randtegels. De tegelkruisjes van 1 mm moeten zodanig worden aangebracht dat ze in contact zijn met de uiteinden van de achterkant van de tegels.

We raden altijd aan dat tegels worden gelegd door een ervaren, professionele tegelzetter. Raadpleeg onze installatiegids op www.winchestertiles.com voor alle informatie.

Допуск на отходы должен составлять 10%. Размеры, указанные выше и приведенные в данной брошюре, предназначены только для передней поверхности плитки/лепнины. Просьба обратить внимание, что передняя поверхность облицовочной плитки и полуплитки коллекции Artisan незначительно меньше, чем задняя поверхность, при этом передняя и задняя поверхность лепнины и бордюров одинакова. Рабочие размеры продукции в этой брошюре следующие:
EN ISO 10545-2, EN14411 Приложение К, Длина и Ширина N > 15 см. = +/- 0.5% от рабочего размера
7 см < N < 15 см. = +/- 0.75 мм от рабочего размера
Это не относится к Winchester Artisan и Винчестер Classic молдингам так как эти молдинги отлитые. В этих случаях делается все возможное, чтобы достичь рабочий размер.
Рекомендуемое межплиточное расстояние: Residence: 3-4 мм, Classic: 3-6 мм, Artisan: 2 мм, Elements: 2мм

Передняя поверхность облицовочной плитки, полуплитки, черепичной и декоративной плитки незначительно меньше, чем задняя поверхность, при этом передняя и задняя поверхность лепнины и бордюров одинакова. Чтобы выровнять плитку и бордюры, рекомендуем использовать 1-миллиметровые разделители при укладке облицовочной плитки, полуплитки, черепичной и декоративной плитки, и 2-миллиметровые разделители при укладке бордюров, каймы и краев. 1-миллиметровые разделители следует вдавить таким образом, чтобы они соприкасались с задней гранью плитки.

Настоятельно рекомендуем, чтобы укладка плитки производилась профессиональным плиточником. См. наше Руководство по укладке на сайте www.winchestertiles.com для получения полной информации.

IMPORTANT INFORMATION

SUITABILITY

NB Winchester wall tiles are not suitable for floors or external use.

They are not suitable work surfaces. If they are installed as such, they will show signs of wear and surface scratching.

MANUFACTURING STANDARDS

Where applicable, all Winchester tiles are manufactured and tested to European Standard EN14411.

DIMENSIONS

All dimensions shown throughout the brochure are nominal; actual dimensions for individual tiles may vary from these figures.

Please note, some reference images of tiles are not in proportion to reference images in other sections.

SYMBOL	KEY	SPECIAL NOTES
	DRY AREAS ONLY	These tile colours are made from copper-based glazes and are all prone to discolouration by the very mild acids often found in the home, for example lemon scented soaps, wine, orange juice and fruit. To avoid discolouration, wash these tiles with clean water only and wipe them dry. Tiles and mouldings in these colours are recommended for dry areas only and should not be installed near kitchen or bathroom sinks or in shower cubicles. If they do get wet for any reason, always wipe any excess residue from the tile surface immediately with warm water and then dry off.
	WET AND DRY WALLS	Suitable for kitchens, bathrooms and showers
	WET AND DRY WALLS BUT NOT POWER SHOWERS	We do not recommend that crazed and crackle tiles are used for power showers, i.e. showers with a very high pressure generated by a forceful pump.
	CRAZING / CRACKLE GLAZES	Highly glazed ceramic tiles may craze with time and no guarantee can be given against this occurrence across all Winchester Tile Company tiles and mouldings. This is an inherent part of our hand finished tiles and adds to their rustic nature. Some of our glazes are subject to crazing and are highlighted with this symbol . Residence Arcadian tiles and mouldings and Artisan Crackle tiles and mouldings are deliberately crackled (as a result of a specific glazing process) to give an aged appearance. You may notice the Residence Arcadian and Artisan Crackle tiles may make a 'crackling' noise as they acclimatise to the temperature of your home and may continue to do so for a short while after installation. This is perfectly normal and is part of the charm of these tiles. CRAZED AND CRACKLE TILES MUST BE SEALED ALL crazed and crackle tiles should be sealed with an impregnator before fixing, for use in both wet and dry areas. This stops any moisture penetrating the body of the tile and causing discoloration once installed. In dry installations impregnating allows for the easy removal of grout from the crazing/crackle. Impregnate again after grouting. They should then be resealed after 90 days of installation and then again after one year. Crackle glazes and crazed tiles will continue to crackle/craze for several months, and so as this occurs each new crackle/craze line becomes unsealed. Suitable impregnators are LTP2905 and Fila MP90.
	ELEMENTS ORIGIN RUSTIC GLAZE	Tiles in the Element Origin Rustic range have holes and pits on the surface. This is an inherent part of the hand finished nature and adds to their character and charm. All of these tiles need to be impregnated before installation. Grout the surfaces of the tiles to fill the voids, then impregnate again once dry. This will seal the surface and ensure that they are watertight.
	SUBJECT TO EFFLORESCENCE	This may affect Residence Foundry Metallic Roman Gold. Fine white crystals may appear on the glaze surface. This is called efflorescence, which is as a result of a natural chemical reaction within the tile. We cannot guarantee against this happening. If it does occur, brush the glaze surface with a stain remover such as LTP Grout Stain Remover. Dilute with four parts of warm water and brush over the glazed surface of the tile. Leave for thirty seconds and wash off completely with water and a wet cloth. Dry with a soft dry cloth
Please refer to the Fixing Guide at www.winchestertiles.com for more information.		

COLOUR VARIATION AND SHADING

The surfaces of Winchester Residence, Artisan and Classic Collection tiles undulate gently, allowing natural shading to occur. These distinctive yet subtle variations in shade within each tile, moulding and border mean no two pieces are ever identical which gives a wonderful impression of depth to tiled areas, adding to their beauty and charm. There may also be subtle shade variations between the background colour on decorative tiles and any co-ordinating/matching field tile.

Residence Foundry Metallics

Each and every Foundry Metallic tile is deliberately different, and this is particularly noticeable in the Roman Gold colours. Some may be rippled, or have uneven textures and colours. This is as a result of chemical reactions between the different glazes and tile base, and factors such as position in the kiln when they are fired. It means that your tile installation will be unique and distinctive. These metallic tiles can be mixed and matched to create many different effects – feel free to experiment!

Before making your choice it is always advisable to ask your Winchester supplier to show you samples.

Before fixing, it is very important to lay the tiles out in good light to ensure that any shade difference is evenly distributed. No liability for shading issues can be accepted after installation.

CLEANING

Wash down tiled surfaces with either clean water or a neutral i.e. not acidic or alkaline detergent. Dry off and polish with a dry duster.

INSTALLATION

For full installation instructions, including grouting and adhesive recommendations, please refer to the Winchester Fixing Guide available at www.winchestertiles.com before commencing your installation. In the USA please follow the recommendations of a reputable adhesive manufacturer and always comply with the American National Institution (ANSI) specifications as set out in the Handbook for Ceramic Tile Installation published by the Tile Council of North America.

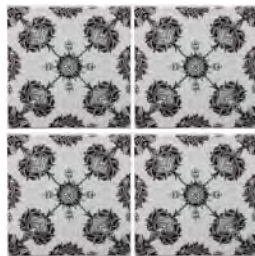

REPEATING PATTERNS - Artisan decorated tiles

Please note that decorative tiles are made individually and may have slight differences between them. They may not line up with each other exactly if placed together, but the overall effect will be stunning.

The designs on these decorative tiles are subtly asymmetrical. To ensure a pleasing repeating pattern, carefully lay the tiles out before fixing them to the wall, to make sure that the patterns on the four edges match each other.

This is correct as all 4 tiles are the right way up

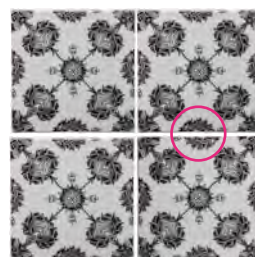

This is correct as all 4 tiles are the right way up

This is correct as all 4 tiles are the right way up

This is incorrect as the patterns on the sides do not line up, because the tile bottom right is upside down

This is incorrect as the patterns top and bottom do not line up, because the tile bottom right is side on

This is incorrect as the patterns on the sides do not line up, because the tile bottom right is upside down

PHOTOGRAPHY

Owing to variations in studio lighting and printing inks, the tile colours shown in this brochure may differ slightly from those of the actual tiles. Before making your choice it is always advisable to ask your Winchester supplier to show you samples.

LIMITS OF LIABILITY

The Winchester Tile Company accepts no liability for the faulty installation of its tiles. In the case of any claim relating to the tiles themselves, Winchester Tile's liability, to the extent permitted by law, is limited to either the replacement of the product or a refund of the cost of the product, and does not extend to cover any consequential loss. Claims must be reported within seven working days from receipt of the tiles. Tiles must be inspected prior to installation and claims cannot be considered after the tiles have been installed. Please be advised that installation constitutes acceptance of the quality, colour, texture, shade and size of tiles.

The Winchester Tile Company warrants that its tiles conform to their description and are fit for their purpose. The Winchester Tile Company makes no other express or implied warranty as to fitness or suitability of the products for particular installations. We extend no guarantees, express or implied, as to wear resistance or maintenance procedures.

Please note, the use of certain acid based cleaning products may cause some of the tiles to react and change in character.

INFORMATIONS ESSENTIELLES

USAGES

Les carrelages muraux Winchester ne conviennent pas pour une pose au sol ou en extérieur. Ils sont uniquement destinés à une pose murale, en intérieur. Nous vous déconseillons de poser les carreaux Winchester sur les surfaces de travail car ils seront sensibles à l'usure et aux rayures. Certains carreaux ne conviennent pas aux zones humides, comme indiqué ci-dessous.

FABRICATION

Lorsque cela est possible, les carreaux Winchester sont fabriqués et testés selon la norme européenne EN14411.

DIMENSIONS

Toutes les dimensions indiquées dans cette brochure sont nominales ; les dimensions réelles des carreaux individuels peuvent être différentes de celles indiquées.

Notez également que certaines images de référence ne sont pas aux mêmes proportions que les images de référence des autres sections.

SYMBOLE	SIGNIFICATION	NOTES SPÉCIALES
	CONVIENT AUX ENDROITS SECS UNIQUEMENT	Ces couleurs sont des émaux à base de cuivre qui risquent tous de se décolorer au contact des acides même les plus doux que l'on retrouve couramment dans les intérieurs, par exemple les savons parfumés au citron, le vin, le jus d'orange et les fruits. Pour éviter toute décoloration, lavez-les à l'eau uniquement et séchez-les avec un torchon. Il est conseillé d'installer les carreaux et moulures de ces couleurs uniquement dans les zones sèches, et d'éviter de les poser à proximité des évier ou dans les cabines de douche. S'ils deviennent humides ou mouillés pour quelque raison que ce soit, rincez immédiatement leur surface à l'eau tiède puis séchez-les.
	MURS ZONES HUMIDES	Convient aux zones humides, telles que les douches, salles de bain, crédence de cuisine
	MURS ZONES HUMIDES MAIS PAS DANS UNE DOUCHE À HAUTE PRESSION	Couleurs susceptibles au faïencage Ne pas installer dans une douche à haute pression
	COULEURS SUSCEPTIBLES AU FAÏENCAGE	Les carreaux en céramique fortement vitrifiés peuvent se craqueler au fil du temps. Nous ne pouvons offrir aucune garantie contre cette éventualité. Il s'agit d'une caractéristique essentielle de nos carreaux finis à la main, qui renforce en outre leur aspect rustique. Certains de nos émaux sont sujets au faïencage et sont reconnaissables par ce symbole  . Veillez toujours à bien sceller les carreaux craquelés avant de passer à l'étape des joints, ce afin de faciliter le nettoyage des craquelures après avoir terminé le jointement. Vous risqueriez sinon d'avoir une coloration dans les craquelures due aux pigments du joint. Veuillez voir ci-dessous. Vous remarquerez peut-être que les carreaux Residence Arcadian et Artisan Crackle émettent un son de « craquelure » alors qu'ils s'acclimatent à la température ambiante de votre intérieur, un phénomène qui pourra se poursuivre pendant quelques temps après leur installation. Cela est tout à fait normal et fait partie du charme de ces carreaux. LES CARREAUX CRAQUELES DOIVENT ETRE IMPERMEABILISES TOUS les carreaux faïencés et craquelés doivent être imperméabilisés avec un imperméabilisant avant l'installation, dans les zones humides et sèches. Cela empêche que l'humidité pénètre à l'intérieur des carreaux et provoque leur décoloration une fois installés. Dans des zones sèches, l'imperméabilisation permet de retirer facilement le joint des craquelures. Imperméabiliser de nouveau après la pose des joints. Les carreaux faïencés ou craquelés devront ensuite être réimperméabilisés 90 jours après la pose, puis de nouveau un an plus tard. En effet, les émaux craquelés continueront de se craqueler pendant encore quelques mois, et lorsque cela arrive chaque nouvelle craquelure n'est pas imperméabilisée. Nous vous conseillons d'utiliser les produits imperméabilisants LTP2905 ou Fila MP90.
	LES CARREAUX DE LA GAMME ELEMENTS ORIGIN RUSTIC	Les carreaux de la gamme Element Origin Rustic ont des trous et creux sur leur surface. Il s'agit d'une caractéristique essentielle de ces carreaux naturels finis à la main qui leur rajoute du caractère et du charme. Tous ces carreaux ont besoin d'être imperméabilisés avant l'installation. Jointez la surface des carreaux pour remplir les trous, puis imprégnez de nouveau une fois que les carreaux sont secs. Cela rendra la surface étanche et assurera que les carreaux soient imperméables.
	DES EFFLORESCENCES RISQUENT D'APPARAÎTRE	Residence Foundry Metallic Roman Gold. Des petits cristaux pourront apparaître à la surface de l'émail. C'est ce que l'on appelle l'efflorescence, provoquée par une réaction chimique naturelle avec le carreau. Nous ne pouvons pas garantir que ce phénomène ne se produira pas. S'il se produit, brossez la surface de l'émail avec un produit détachant. Diluez une dose de produit dans quatre doses égales d'eau puis brossez la surface du carreau. Laissez agir trente secondes puis rincez bien avec un chiffon imbibé d'eau. Séchez ensuite avec un chiffon sec et doux.
Veuillez vous référer au Guide d'installation sur www.winchestertiles.com pour de plus amples informations.		

VARIATIONS DE COULEUR ET TEINTE

La surface des carreaux Winchester Residence, Artisan et Classic Collection ondule délicatement, créant ainsi naturellement des nuances de couleur. Ces variations de teinte, à la fois distinctives et subtiles, sur chaque carreau, moulure et bordure, confèrent à chacun de ces éléments une apparence unique. Elles donnent ainsi une merveilleuse impression de profondeur aux surfaces carrelées et accentuent encore leur charme et leur beauté. De subtiles variations peuvent aussi apparaître entre la couleur de fond des carreaux décoratifs et tout carreau uni correspondant.

Avant de faire votre choix, il est toujours préférable de demander à votre revendeur Winchester de vous montrer des échantillons.

Avant de poser vos carreaux, il est important de les étaler sous une lumière. Nous n'accepterons aucune responsabilité pour les problèmes liés à la teinte une fois les carreaux installés.

ÉMAILLAGE

Il est peu probable que les moulures Tore/ Ogee soient émaillées le long du bord supérieur. Cela signifie que la couleur de base du carreau peut apparaître le long du bord supérieur et nous ne pouvons pas garantir que cela ne soit le cas.

COULEURS BRILLANTES OU CRAQUELÉES ARTISAN

Veillez noter qu'une couleur de même nom pourra présenter une légère variation de teinte selon si elle est brillante (Gloss) ou craquelée (Crackle).

Notez également que certaines images de référence ne sont pas aux mêmes proportions que les images de référence des autres sections.

NETTOYAGE

Nettoyez les surfaces carrelées à l'eau propre ou bien avec un détergent neutre (ni acide, ni alcalin). Séchez et frottez avec un chiffon non pelucheux.

INSTALLATION

Pour obtenir des instructions complètes l'installation, y compris des recommandations concernant les ciments-joints et les colles, veuillez vous reporter au Guide de fixation Winchester sur www.winchestertiles.com avant de procéder à l'installation.

FOUNDRY METALLICS

Chaque carreau Foundry Metallic est délibérément différent, ce qui est particulièrement évident avec les couleurs Roman Gold. Certains présenteront des ondulations, des couleurs variables ou des textures irrégulières. Ceci est le résultat de réactions chimiques entre les différents émaux et le carreau de base, mais aussi d'autres facteurs tels que leur position dans le four au moment de leur cuisson. Cela signifie que votre installation sera unique et distinctive. Ces carreaux métalliques peuvent être mélangés et assortis entre eux pour créer des effets incroyablement variés. Laissez libre cours à votre imagination!

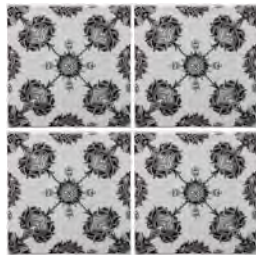

MOTIFS RÉPÉTITIFS - Carreaux décorés Artisan

Notez que les carreaux décoratifs sont fabriqués individuellement et pourront présenter de légères différences d'un carreau à l'autre. Ils ne s'aligneront pas toujours parfaitement lorsque vous les posez ensemble mais l'effet général n'en sera pas moins saisissant.

Les motifs de ces carreaux décoratifs sont subtilement asymétriques. Pour que votre motif répétitif soit harmonieux, disposez vos carreaux soigneusement sur le sol avant de les installer au mur pour vérifier que les motifs en bordure de chaque carreau soient assortis aux carreaux adjacents.

Cette disposition est correcte car les 4 carreaux sont dans le bon sens

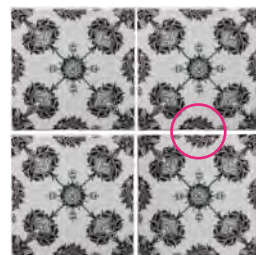

Cette disposition est correcte car les 4 carreaux sont dans le bon sens

Cette disposition est correcte car les 4 carreaux sont dans le bon sens

Cette disposition est incorrecte : les motifs sur les côtés ne sont pas alignés car le carreau en bas à droite est à l'envers

Cette disposition est incorrecte : les motifs ne sont pas alignés en haut et en bas car le carreau en bas à droite est mal orienté

Cette disposition est incorrecte : les motifs sur les côtés ne sont pas alignés car le carreau en bas à droite est à l'envers

PHOTOGRAPHIE

L'éclairage en studio et les encres utilisées pour l'impression peuvent affecter les couleurs des carreaux présentés dans ce catalogue. Avant de faire votre choix, il est toujours préférable de demander à votre revendeur Winchester de vous montrer des échantillons.

RESPONSABILITÉ

Winchester Tile Company n'accepte aucune responsabilité si ses carreaux ne sont pas installés correctement. En cas de plainte concernant les carreaux mêmes, la responsabilité de Winchester Tile, en conformité avec la loi, se limite au remplacement ou au remboursement complet du produit et ne couvre aucune perte indirecte. Toute réclamation doit être effectuée dans les sept jours suivant la réception des carreaux. Les carreaux doivent être inspectés avant installation. Aucune réclamation ne sera prise en compte une fois les carreaux installés. Veuillez noter que l'installation des carreaux représente l'acceptation de leur qualité, couleur, texture, teinte et taille.

Winchester Tile Company garantit que ses carreaux sont conformes à leur description et conviennent à l'usage indiqué. Winchester Tile Company ne garantit en aucun cas, expressément ou implicitement, la conformité des produits à des installations particulières. Nous ne formulons aucune garantie, expresse ou implicite, vis-à-vis de la résistance à l'usure ou des procédures d'entretien.

Veuillez noter que l'utilisation de certains produits nettoyants à base d'acide peut provoquer des réactions sur certains carreaux et en modifier les caractéristiques.

WICHTIGE INFORMATIONEN

EIGNUNG

Winchester-Wandfliesen eignen sich nicht für Böden oder Außenbereiche. Sie sind nur für Innenwände geeignet. Wir empfehlen nicht, dass Winchester Fliesen als Arbeitsflächen installiert werden. Wenn sie auf Arbeitsflächen verlegt werden, zeigen sich schnell Anzeichen von Verschleiß und Oberflächenkratzer. Einige sind nicht für Nassräume geeignet, siehe unten.

HERSTELLUNG

Sofern zutreffend, werden alle Winchester Fliesen gemäß der Europäischen Norm EN14411 hergestellt.

ABMESSUNGEN

Bei allen Maßangaben in diesem Katalog handelt es sich um Nennwerte; die tatsächlichen Maße einzelner Fliesen können etwas abweichen. Bitte beachten Sie, dass das Bildmaterial in diesem Katalog nicht das reelle Größenverhältnis widerspiegelt. So kann die Größe der Fliesen auf einem Bild nicht zwangsläufig mit den Fliesen eines anderen Bildes verglichen werden.

SYMBOL	BEDEUTUNG	BESONDERE HINWEISE
	NUR FÜR TROCKENE BEREICHE	Diese Fliesen haben kupferhaltigen Glasuren und neigen bei Kontakt zu haushaltüblichen Säuren, wie z. B. bestimmten Reinigungsmitteln (z.B. Seifen mit Zitrusduft), Wein, Orangensaft und Früchten, zu Verfärbungen. Um Verfärbungen zu vermeiden, reinigen Sie diese Fliesen nur mit klarem Wasser und reiben Sie diese nach der Reinigung sofort trocken. Fliesen und Formstücke in diesen Farben dürfen nur in trockenen Bereichen eingesetzt werden und eignen sich nicht für die Installation in der Nähe von Küchenspülen oder in Duschkabinen. Sollten diese Produkte nass werden, waschen Sie Rückstände immer sofort mit warmem, klarem Wasser ab und reiben Sie die Oberfläche trocken.
	TROCKEN- UND NASSBEREICHE	Geeignet für Küchen, Badezimmer, Duschen und Dampfbäder
	FÜR NASSBEREICHE ABER NICHT FÜR POWER-DUSCHEN GEEIGNET	Wir empfehlen nicht, Fliesen mit Haarrissen oder Craquelé in Power-Duschen bzw. Duschen mit sehr hohem Wasserdruck zu installieren.
	NEIGUNG ZU HAARRISSBILDUNG / CRAQUELÉ	Hochglasierte Fliesen können mit der Zeit Haarrisse bilden. Dies liegt in der Natur unserer handgefertigten Keramik und unterstreicht den rustikalen Charme der Fliesen. Haarrisse können bei allen Fliesen und Formteilen der Winchester Tile Company auftreten und sind kein Reklamationsgrund. Einige Glasuren neigen verstärkt zur Haarrissbildung und sind mit diesem Symbol gekennzeichnet . Bei den Residence Arcadian Fliesen und Formstücke sowie Artisan Crackle Fliesen und Formstücken werden in einem speziellen Glasurverfahren diese Risse bewusst erzeugt. Dieser sog. Craquelé-Effekt gibt den Fliesen ein gewollt „gealtertes“ Aussehen. Sie werden nach der Installation von Residence Arcadian und Artisan Crackle eventuell ein „Knistern“ wahrnehmen, welches durch die Anpassung der Fliesen an die Temperatur Ihres Hauses erzeugt wird. Dieses Phänomen kann auch noch für bestimmte Zeit nach der Installation anhalten. Dies ist völlig normal und Teil des Charms dieser Fliesen. VOR UND NACH DER INSTALLATION ZU IMPRÄGNIEREN, AUCH BEI CRAQUELÉ / HAARRISSEN Fliesen mit Haarrissen oder Craquelé müssen bei der Installation in stets imprägniert werden, um das Eindringen von Feuchtigkeit und somit Verfärbungen zu verhindern. Die Imprägnierung sollte 90 Tage sowie nochmals 12 Monate nach der Installation wiederholt werden. Haarrisse bilden sich über mehrere Monate hinweg und jeder neue Riss ist somit unversiegelt. Für die Imprägnierung eignen sich LTP2905 oder Fila MP90.
	FLIESEN DER ELEMENT ORIGINAL RUSTIC KOLLEKTION	Fliesen der Element Original Rustic Kollektion haben kleine Löcher und Einkerbungen in der Oberfläche. Diese liegen in der Natur dieser handgefertigten Produkte und tragen zum Charakter und Charme bei. Die Fliesen müssen vor der Installation imprägniert werden. Verfugen Sie die Oberflächen, um die offenen Poren zu füllen und imprägnieren Sie sobald trocken. Dieser Vorgang versiegelt die Oberfläche und macht sie wasserdicht.
	NEIGUNG ZU AUSBLÜHUNGEN	Bei Fliesen der Residence Foundry Metallic Roman Gold Kollektion können feine weiße Kristalle an die Glasuroberfläche treten. Diese werden als Ausblühungen bezeichnet und entstehen aufgrund einer natürlichen chemischen Reaktion innerhalb der Fliese. Diese sind kein Reklamationsgrund. Sollten Ausblühungen entstehen, empfehlen wir die Oberfläche mit einem Fleckenentferner zu behandeln, wie z.B. LTP Grout Stain Remover. Verdünnen Sie diesen hierzu mit 4 Teilen warmem Wasser und tragen Sie diese auf die Oberfläche auf. 30 Sekunden einwirken lassen und danach mit klarem Wasser und einem feuchten Tuch säubern. Mit einem weichen, trockenen Tuch abreiben.
Weitere Informationen finden Sie in unserer Verlegeanleitung unter www.winchestertiles.com		

FARBABWEICHUNGEN UND FARBNUANCEN

Die Oberfläche der Kollektionen Winchester Residence, Artisan and Classic verläuft leicht wellenförmig, sodass natürliche Farbnuancen erzeugt werden. Diese charakteristischen Abweichungen des Farbtons in jeder Fliese, jedem Formstück oder jeder Bordüre schaffen einen wunderbaren Eindruck von Tiefe, der die natürliche Schönheit dieser Fliesen zusätzlich betont. Auch Ebenso können Dekorfliesen im Ton leicht von Grundfliesen der selben Farbe abweichen.

Es ist stets ratsam, Ihren Winchester Händler zu bitten, Ihnen Muster zu zeigen, bevor Sie Ihre Auswahl treffen.

Vor dem Verlegen der Fliesen müssen diese unbedingt unter guten Lichtverhältnissen lose ausgelegt werden, damit etwaige Farbunterschiede gleichmäßig verteilt werden können. Wir können keine Haftung für eventuelle Farbprobleme nach der Installation übernehmen.

GLASIERTE KANTEN

Es ist unwahrscheinlich, dass die oberen Kanten unserer Torus / Ogee Formteile vollständig glasiert sind. Die Farbe der Scherbe kann eventuell an dieser Stelle sichtbar sein. Dies stellt kein Reklamationsgrund dar.

ARTISAN HOCHGLANZ- UND CRAQUELÉ-GLASUR-FARBEN

Beachten Sie bitte, dass geringfügige Farbunterschiede zwischen Gloss und Crackle (Hochglanz- und Craquelé-Glasur-Farben) mit dem gleichen Namen existieren.

REINIGUNG

Geflieste Flächen entweder mit klarem Wasser oder einem neutralen Reinigungsmittel (d. h. weder saures noch alkalisches Mittel) abwaschen. Mit einem trockenen Staubtuch abtrocknen und polieren.

FOUNDRY METALLICS

Jede einzelne Foundry Metallic Fliese ist bewusst anders gestaltet – dies ist besonders bei den Roman Gold Farben auffällig. Einige sehen wellig aus oder weisen unebene Texturen und Farben auf. Dies ist das Ergebnis von chemischen Reaktionen zwischen den verschiedenen Glasuren und dem Fliesenträger sowie Faktoren wie die Position im Ofen, als die Fliese gebrannt wurde. Daraus folgt, dass Ihre Flieseninstallation einzigartig und unverwechselbar ist. Diese metallischen Fliesen können so miteinander kombiniert werden, dass sich viele verschiedene Effekte ergeben – experimentieren Sie einfach!

INSTALLATION

Vollständige Installationshinweise, einschl. Empfehlungen zu Kleber und Fugenmasse finden Sie in der Anleitung zur Verlegung von Winchester Fliesen unter www.winchestertiles.com

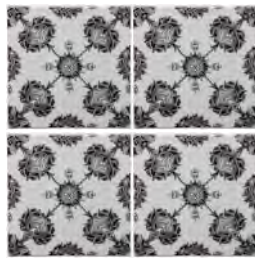

RAPPORT-DESIGNS - Artisan Dekorfliesen

Bitte beachten Sie, dass Dekorfliesen einzeln gefertigt werden und leichte Unterschiede aufweisen können. Unter Umständen kommt es vor, dass sie nicht exakt in einer Linie liegen. Dennoch ist die Gesamtwirkung beeindruckend.

Die Designs dieser Dekorfliesen sind leicht asymmetrisch. Um ein attraktives wiederholendes Muster zu gewährleisten, legen Sie die Fliesen vor der Befestigung an der Wand sorgsam aus, um sicherzustellen, dass die Muster auf den vier Kanten zueinander passen.

Richtig, da alle 4 Fliesen korrekt ausgerichtet sind

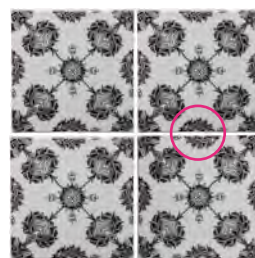

Richtig, da alle 4 Fliesen korrekt ausgerichtet sind

Richtig, da alle 4 Fliesen korrekt ausgerichtet sind

Falsch. Die Muster verlaufen an den Seiten nicht in einer Linie, da die Fliese unten rechts auf dem Kopf steht.

Falsch. Die Muster verlaufen an den Seiten nicht in einer Linie, da die Fliese unten rechts auf dem Kopf steht.

Falsch. Die Muster verlaufen an den Seiten nicht in einer Linie, da die Fliese unten rechts auf dem Kopf steht.

FOTOGRAFIEN

Aufgrund von Abweichungen in Studiobleuchtung und Druckfarben, können die, in diesem Katalog dargestellten Fliesenfarben, leicht von den Farben der tatsächlichen Fliesen abweichen. Es ist stets ratsam, Ihren Winchester Händler zu bitten, Ihnen Muster zu zeigen, bevor Sie Ihre Auswahl treffen.

HAFTUNGSBESCHRÄNKUNG

Die Winchester Tile Company übernimmt für die fehlerhafte Installation der Fliesen keine Haftung. Sollte es Reklamationen bezüglich der Fliesen selbst geben, dann beschränkt sich die gesetzliche Haftung von Winchester Tile lediglich auf den Artikelaustausch oder Kostenrückerstattung. Weitere Schäden werden nicht abgedeckt. Reklamationen müssen innerhalb von sieben Arbeitstagen nach Erhalt der Fliesen eingereicht werden. Fliesen müssen vor der Installation kontrolliert werden. Eine Reklamation nach der Installation ist nicht möglich.

Bitte beachten Sie, dass Sie durch die Installation Qualität, Farbe, Textur, Farbe und Größe der Fliesen akzeptieren.

Die Winchester Tile Company gewährleistet die beschreibungs- und zweckgemäße Fabrikationsausführung der Fliesen. Die Winchester Tile Company gibt keine weiteren ausdrücklichen oder impliziten Garantien hinsichtlich Eignung der Produkte für besondere Installationsarten. Wir geben weder ausdrücklich noch implizit eine Garantieverlängerung auf Abnutzungsverhalten oder Wartungsarbeiten.

Die Verwendung von säurebasierten Reinigungsprodukten kann bei einigen Fliesen Reaktionen und Veränderungen im Erscheinungsbild hervorrufen.

BELANGRIJKE INFORMATIE

GESCHIKTHEID

Winchester wandtegels zijn niet geschikt voor vloeren en buitengebruik. Ze zijn alleen bedoeld voor binnenmuren. We raden niet aan dat de Winchester tegels worden gebruikt voor het aanrechtblad. Als ze worden gebruikt voor aanrechtbladen, dan zullen tekenen van slijtage en krassen zichtbaar zijn. Enkele zijn niet geschikt voor natte oppervlakken: zie hieronder.

FABRICAGE

Voor zover van toepassing zijn alle tegels van Winchester geproduceerd in overeenstemming met Europese Richtlijn EN14411.

AFMETINGEN

Alle in de brochure vermelde afmetingen zijn nominaal. De werkelijke afmetingen van afzonderlijke tegels kunnen afwijken van deze cijfers. De verhouding van sommige referentieafbeeldingen van tegels in de brochure verschilt van die van de afbeeldingen in andere secties.

SYMBOOL	BETEKENIS	SPECIALE AANTEKENINGEN
	ALLEEN DROGE MUREN	Deze kleuren zijn geproduceerd met glazuren op koperbasis en kunnen verkleuren als gevolg van de zeer milde zuren die vaak worden aangetroffen bij mensen thuis, bijvoorbeeld in schoonmaakmiddel met citroengeur, wijn, sinaasappelsap en fruit. Om deze verkleuring te vermijden, wast u deze tegels alleen met schoon water en droogt u ze af. Tegels en profielen in deze kleuren worden alleen aanbevolen voor droge plekken en dienen niet in de buurt van de keukengootsteen of in de douchecabine te worden gezet. Als ze toch nat worden, dan veegt u het eventuele vuil onmiddellijk van de tegels af met warm water en droogt u ze af.
	NATTE EN DROGE MUREN	Natte oppervlakken, zoals douches en splashbacks bij gootstenen
	NATTE EN DROGE MUREN MAAR NIET GESCHIKT IN DE BUURT VAN 'POWER SHOWERS'	Natte oppervlakken maar niet geschikt voor gebruik in de buurt van 'power showers'
	CRAQUELÉ EN HAARSCEURTJES	Sterk geglaazuurde keramische tegels kunnen na verloop van tijd haarsceurtjes gaan vertonen. We kunnen dienaangaande geen enkele garantie bieden. Dit is een eigenschap van onze handgemaakte tegels en draagt bij aan hun rustieke aard. Enkele van onze glazuren kunnen mettertijd haarsceurtjes vertonen. Dit is van toepassing op de kleuren die worden aangeduid met een . Residence Arcadian tegels en profielen en de Artisan Crackle tegels en profielen bevatten opzettelijk craquelé (dit is het gevolg van een specifiek glazuurproces), zodat ze er antiek utzien. U merkt wellicht dat de tegels van Residence Arcadian en Artisan Crackle een craquelégeluid maken als ze zich aanpassen aan de temperatuur van uw huis. Hiervan kan enige tijd na het zetten sprake zijn. Dit is absoluut normaal en maakt deel uit van de charme van deze tegels. Alle gecraqueleerde tegels en tegels met haarsceurtjes dienen te worden geïmpregneerd, zodat vocht niet binnendringt en de tegels niet verkleuren. Gecraqueleerde tegels en tegels met haarsceurtjes moeten dan na 90 dagen opnieuw worden geïmpregneerd, en vervolgens opnieuw na een jaar. Het craqueléproces van de tegels duurt enkele maanden. De tijdens dit proces ontstane scheurtjes moeten ook worden geïmpregneerd. Geschikte impregneermiddelen zijn Lithofin KF Impregneermiddel of Fila MP90. Wanneer u niet wilt dat het voegmiddel de haarsceurtjes in het glazuur verkleurt, impregneer dan altijd de tegel voor het voegen, zodat u de scheurtjes makkelijk kunt schoonmaken. Zie hieronder.
	ELEMENTS ORIGIN RUSTIC GLAZUUR	De Elements Origin Rustic tegels hebben putjes en oneffenheden op het oppervlak. Dit is een inherent karakter van deze, met de hand afgewerkte, tegels en geeft ze een rustieke charme. Al deze tegels moeten geïmpregneerd worden voor het voegen. Vul tijdens het voegen de putjes in het oppervlak met voegmiddel en wanneer de tegels schoon en droog zijn, impregneer de tegels vervolgens nogmaals. Dit zorgt ervoor dat de tegels geheel geseald en waterdicht zijn.
	KAN ONDERHEVIG ZIJN AAN UITBLOEIINGEN	Er kunnen kleine, witte kristallen verschijnen op het geglaazuurde oppervlak. Dit wordt efflorescentie genoemd en is het gevolg van een natuurlijke chemische reactie in de tegel. We kunnen niet garanderen dat dit niet gebeurt. Als het gebeurt, dan borstelt u het geglaazuurde oppervlak af met een vlekkenverwijderaar. Verdun de vlekkenverwijderaar met vier delen warm water en borstel het geglaazuurde oppervlak van de tegel af. Laat het middel dertig seconden intrekken en spoel het dan af met water en een vochtige doek. Droog het af met een zachte, droge doek.
Raadpleeg de installatiegids op www.winchestertiles.com voor meer informatie.		

KLEURVARIATIE EN NUANCERING

Tegels uit de Winchester Residence, Artisan en Classic Collection hebben oppervlakken die enigszins kunnen 'golven', zodat een natuurlijke nuanciering kan optreden. Deze opmerlijke en subtiele variaties zorgen er voor dat de tegels nooit precies gelijk zijn. Hierdoor krijgen betegelde oppervlakken een gevoel van diepte, wat bijdraagt aan een charmant eindresultaat. Er kan ook sprake zijn van subtiele kleurschakeringen tussen de achtergrondkleur van de siertegels en coördinerende/bijpassende unitegels.

Voordat u uw keuze maakt, is het altijd raadzaam om uw Winchesterleverancier te vragen om monsters.

Leg de tegels neer op een goed verlichte plek voordat u ze zet, zodat verschillende kleurnuances goed worden verdeeld. We zijn niet aansprakelijk voor problemen met de kleurnuanciering na het zetten.

GLAZUUR

NB Het is onwaarschijnlijk dat de Residence Arcadian/Metropolitan Torus/Ogee mouldings op de bovenste rand geglaazuurd zijn. Dit betekent dat de basiskleur van de tegel zichtbaar is bovenop en we kunnen helaas niet garanderen dat dit niet het geval is.

GLANZENDE EN GECRAQUELEERDE KLEUREN VAN ARTISAN

Let op: er kan sprake zijn van kleine kleurverschillen tussen glanzende en gecraqueleerde kleuren met dezelfde naam. Let op: de verhouding van sommige referentieafbeeldingen van tegels verschilt van die van de afbeeldingen in andere secties.

DE INSTALLATIE

Voor alle installatieaanwijzingen, waaronder tips voor het voegen en voor de lijm, raadpleegt u voor het zetten de installatiegids van Winchester, die te vinden is op www.winchestertiles.com.

REINIGEN

Was betegelde oppervlakken met schoon water of een neutraal schoonmaakmiddel (geen bijtend middel, of op alkalinebasis). Droog af en poets op met een droge stofdoek.

FOUNDRY METALLICS

Elke tegel van Foundry Metallic is met opzet uniek. Dit komt vooral tot uitdrukking in de kleuren van Roman Gold. Sommige kunnen lijnen, oneffen texturen en verschillende kleuren bevatten. Dit is het gevolg van chemische reacties tussen de verschillende glazuren en de tegel, en factoren als de positie in de oven als ze worden verhit. Dit betekent dat uw eindresultaat ook uniek en opmerkelijk zal zijn. Deze metallische tegels kunnen worden gemengd, zodat allerlei verschillende effecten kunnen worden gecreëerd... Laat uw fantasie de vrije loop!

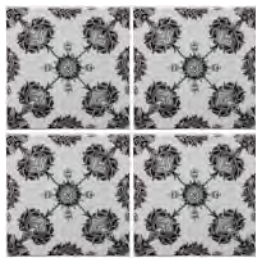

PATRONEN HERHALEN - Artisan decoratieve tegels

De decoratieve tegels worden per stuk gemaakt. Er kan dus sprake zijn van kleine verschillen tussen de tegels. Als ze samen worden gelegd, dan sluiten ze wellicht niet precies op elkaar aan. Het overkoepelende effect is daarentegen prachtig.

De ontwerpen op deze siertegels worden gekenmerkt door een subtiele asymmetrie. Om een patroon met mooie herhalingen te maken, legt u de tegels neer voordat u ze bevestigt tegen de muur. Zorg ervoor dat de patronen van de vier hoeken op elkaar aansluiten.

Dit is juist, want alle vier de tegels zijn naar boven gericht

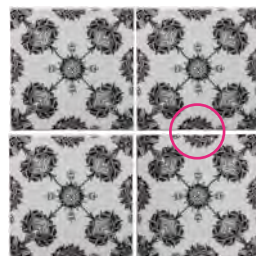

Dit is juist, want alle vier de tegels zijn naar boven gericht

Dit is juist, want alle vier de tegels zijn naar boven gericht

Dit is onjuist, want de patronen aan de zijanten sluiten niet op elkaar aan, aangezien de tegel rechtsonder ondersteboven is aangebracht

Dit is onjuist, want de patronen aan de boven- en onderkant sluiten niet op elkaar aan, aangezien de tegel rechtsonder gekanteld is aangebracht

Dit is onjuist, want de patronen aan de zijanten sluiten niet op elkaar aan, aangezien de tegel rechtsonder ondersteboven is aangebracht

FOTOGRAFIE

Als gevolg van variaties in studiobelichting en printinkten kunnen de in deze brochure afgebeelde kleuren enigszins afwijken van die van de daadwerkelijke tegels. Voordat u uw keuze maakt, is het altijd raadzaam om uw Winchester leverancier te vragen om monsters.

AANSPRAKELIJKHEIDSBEPERKING

The Winchester Tile Company is niet aansprakelijk voor de verkeerde installatie van zijn tegels. In geval van claims met betrekking tot de tegels zelf is de aansprakelijkheid van Winchester Tile, voor zover dit wettelijk is toegestaan, beperkt tot het vervangen van het product of het vergoeden van de kosten van het product en is gevolgschade niet inbegrepen. Claims moeten binnen zeven werkdagen na ontvangst van de tegels worden ingediend. De tegels moeten worden geïnspecteerd voordat deze worden gezet. Claims worden niet behandeld nadat de tegels zijn gezet.

Tot de zetting behoort het aanvaarden van de kwaliteit, kleur, structuur, schakering en afmetingen van de tegels.

The Winchester Tile Company garandeert dat de tegels overeenkomen met hun omschrijving en geschikt zijn voor het beoogde gebruik. The Winchester Tile Company maakt geen andere uitdrukkelijke of impliciete garanties met betrekking tot de geschiktheid van de producten voor bepaalde installaties. We geven geen garanties, uitdrukkelijk of impliciet, ten aanzien van slijtagebestendigheid of onderhoudsmaatregelen.

We wijzen u erop dat het gebruik van bepaalde bijtende reinigingsmiddelen kan leiden tot een reactie van de tegels, waarvan het uiterlijk kan veranderen.

Важная информация

Соответствие требованиям

Настенная плитка Winchester не предназначена для напольного покрытия или использования на открытом воздухе. Плитка предназначена только для внутренних стен. Мы не рекомендуем укладывать плитку Winchester на рабочую поверхность, поскольку возможно образование потертостей и царапин, некоторые виды плитки не предназначены для влажных помещений (см. далее).

По возможности, все плитки Winchester производятся в соответствии с Европейским стандартом EN14411.

Размеры

В данной брошюре указаны стандартные размеры; фактические размеры отдельной плитки могут отличаться от указанных в брошюре. Приведенные в качестве справочных в брошюре иллюстрации могут не соответствовать фотографиям плитки в других разделах.

Символ	Всмысле	Особые примечания
	Только сухое помещение	Плитка этих оттенков покрыта глазурью на медной основе, поэтому возможно изменение цвета при контакте со слабыми кислотами, которые часто используются в быту, например, мыло с лимонным запахом, вино, апельсиновый сок и фрукты. Чтобы избежать изменения цвета, плитку следует мыть только чистой водой, а затем вытирать насухо. Плитку и лепнину этих оттенков рекомендуется использовать только в сухих помещениях, вдали от кухонных умывальных раковин и душевых. Если плитка по какой-либо причине намокла, следует незамедлительно промыть теплой водой, а затем вытереть насухо.
	влажные и сухие стены	Влажные помещения, например, душевые, панели над умывальной раковиной
	не предназначена для использования вблизи душевых систем с повышенным давлением.	Мы не рекомендуем использовать плитку с трещинами и кракелюрами для установки вблизи душевых систем с повышенным давлением.
	Плитка с трещинами и кракелюрами	На глянцевой поверхности керамической плитки со временем могут образоваться трещины. Гарантии на такие случаи не предоставляются. Это особенность обработанной вручную плитки, что придает ей уникальный внешний вид. Некоторые из наших глазурей подвержены растрескиванию (образованию кракелюров) и выделены этим символом  Residence Arcadian плитка и молдинг и Artisan Crackle плитка и молдинг намеренно производят с кракелюрами (результат специфического процесса глазирования), чтобы предать старинный вид. Вы можете обратить внимание на то что, непродолжительный период времени после укладки, плитка коллекций Residence Arcadian и Artisan Crackle издает ' треск' по мере акклиматизации к температуре помещения. Это является естественной реакцией и именно такая особенность придает нашей продукции своеобразное очарование. При использовании плиток с трещинами и кракелюрами в сухих и влажных помещениях, плитку перед установкой нужно обработать пропитывающим агентом, чтобы предотвратить проникновение влаги внутрь плитки, что может привести к ее выцветанию. Плитку с трещинами и кракелюрами также следует герметизировать через 90 дней после укладки, а затем вновь через год. Плитка с трещинами и кракелюрами будет в течение нескольких месяцев продолжать покрываться трещинами, и новые трещины соответственно не будут иметь герметизации. Подходящими пропиточными средствами считаются LTP2905 и Fila MP90. Чтобы облегчить удаление остатков затирки и предотвратить образование пигментных пятен плитку перед затиркой всегда следует герметизировать.
	Плитки в разделе «Elements Origin Rustic Glaze»	Плитки в разделе «Elements Origin Rustic Glaze» имеют отверстия и ямы на поверхности. Это неотъемлемая часть ручной работы которая придает очарование и характер этой плитке. Все эти плитки должны быть пропитанным перед установкой. Заполните пустоты поверхности плитки затиркой, а затем снова пропитайте после высыхания. Это закрепит поверхность плитки и обеспечит ее водонепроницаемость.
	Возможна эфioresценция	Residence Foundry Metallic Roman Gold на глазурованной поверхности могут образоваться небольшие белые кристаллы. Этот процесс называется эфioresценцией, которая возникает в результате естественной химической реакции с поверхностью плитки. Мы не можем дать гарантий того, что этого не произойдет. При образовании эфioresценции следует обработать глазурованную поверхность плитки пятновыводителем, разведенным теплой водой в пропорции 1 к 4 (1 доля пятновыводителя к 4 долям теплой воды), оставить на 30 секунд, а затем полностью смыть водой и влажной тканью. Вытереть мягкой сухой тканью.
См. руководство по укладке на сайте www.winchestertiles.com для получения дополнительной информации.		

Разные цвета и оттенки

Поверхность плитки Winchester Residence, Artisan и Classic Collection слерка волнистая, что позволяет естественное затенение. Подобная заметная, при этом незначительная разница оттенков между плитками, лепниной и бордюрами означает, что все плитки по-своему индивидуальны, благодаря чему создается красивый глубокий эффект, что придает очарования покрытым такой плиткой помещениям. Кроме того, фон декоративной плитки и облицовочной плитки также может отличаться.

Перед тем, как выбрать плитку, рекомендуется обратиться к поставщику Winchester за образцами.

Перед укладкой плитки исключительно важно разложить ее на хорошо освещенной поверхности, чтобы убедиться, что все разные оттенки распределены равномерно. После укладки плитки компания не несет ответственности за любые проблемы, возникающие в связи с различными оттенками.

См. примечание далее касательно Foundry Metallics.

Foundry Metallic

Все плитки Foundry Metallic специально создаются разными. Подобные различия особенно заметны в цветовой палитре Roman Gold. Некоторые имеют рифленую поверхность, неравномерную текстуру или окраску. Это происходит в результате химической реакции между различными видами глазури и плиточной основы, а также зависит от таких факторов, как расположение в печи при обжиге. Данную металлическую плитку можно комбинировать на свой вкус, чтобы создавать разные узоры – свободно экспериментируйте!

Artisan глянцевые цвета и плитка с кракелюрами

Внимание: цвета глянцевой плитки и плитки с кракелюрами с одним и тем же наименованием могут незначительно отличаться.
Внимание: приведенные в качестве справочных иллюстрации могут не соответствовать фотографиям плитки в других разделах.

Глазурь Residence Arcadian/Metropolitan

Обратите внимание: Маловероятно, что поверхность вдоль верхнего края бордюров Torus/Ogee будет покрыта глазурью, в связи с этим мы не даем гарантии что цвет неглазурованной основы плитки не будет виден вдоль верхнего края бордюров.

Чистка

Промыть поверхности либо чистой водой либо нейтральным моющим средством (то есть не кислотным и не щелочным). Вытереть насухо и отполировать сухой щеткой.

Укладка

Перед тем, как укладывать плитку, следует ознакомиться с полными инструкциями по укладке, включающими рекомендации по выбору затирочных и клеящих материалов, которые приведены в Руководстве по укладке Winchester на сайте www.winchestertiles.com.

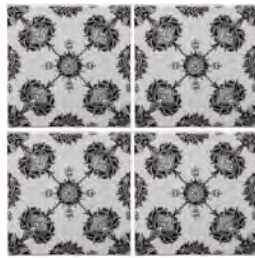

Повторяющиеся узоры - Декоративная плитка Artisan

Просьба обратить внимание, что декоративная плитка изготавливается индивидуально, поэтому между плитками могут быть незначительные различия. Такие плитки могут не сходиться в точности, но общее впечатление будет потрясающим.

Конструкция декоративной плитки немного ассиметрична. Чтобы получился красивый узор, следует разложить плитку на отдельной поверхности до ее укладки, чтобы узоры на всех четырех углах плитки соответствовали друг другу.

Верно – все 4 плитки
расположены правильно

Фотографии

С учетом освещения в студии и типографической краски, цвет плитки на фотографиях, представленных в данной брошюре, может незначительно отличаться от фактического цвета плитки. Перед тем, как выбрать плитку, рекомендуется обратиться к поставщику Winchester за образцами.

Ограничение ответственности

Компания Winchester не несет ответственности за дефекты при установке ее продукции. При возникновении претензий относительно качества плитки, ответственность компании Winchester в установленных законом случаях ограничена либо заменой товара, либо возмещением его стоимости, и не распространяется на возмещение косвенных убытков. О претензиях необходимо сообщать в течение 7 рабочих дней после получения плитки. Плитку следует проверить до ее установки. После установки плитки претензии не принимаются. Просьба обратить внимание, что установка плитки означает отсутствие претензий к ее качеству, цвету, размерам, текстуре и оттенкам.

Компания Winchester гарантирует, что плитка соответствует ее описанию и пригодна для использования в надлежащих целях. Компания Winchester не предоставляет ни прямых, ни косвенных гарантий соответствия или пригодности товара для конкретных видов установки. Мы не обеспечиваем ни прямые, ни косвенные гарантии износоустойчивости. Просьба обратить внимание, что использование определенных моющих средств на кислотной основе может привести к химической реакции и изменению свойств плитки.
